Customer Reviews

I purchased this as a gift for 3 girlfriends having babies this last year. One of my friends had her 3rd child and I have given each of her babies one of these types of first year books. She LOVES LOVES LOVES this one the best. It's great for both girls and boys. It hold so much and is really the best for your money hands down. I'll be buy one of these again for each new baby in my life!

I purchased this scrapbook for my sister-in-law's baby shower and she loves it!! It is spiral bound but is fully covered with a hard cover. Inside its pages feel sturdy and each have a pocket to place photos and other memories. Scrapbook is easy to record and has pages for different events. Such as recording baby ultra sounds, baby shower, baby birth, family's tree, and other milestones for the baby's first year. It's fun and colorful too. This book is well made & and I have no doubt that it will last for years to come. I look forward to the day when my niece will be able to enjoy this memory book too. I an now purchasing this book for my best friend who is due this summer.

Great book for recording baby's milestones and first pictures. Adorable pages that have enough info on them to help remember important memories, but is not overwhelming. Colors are nice and bright.

Pages are hollow for putting mementos in, but I don't know that I would put stuff in each pocket as I think it would make the book too bulky. Overall a really nice boo, especially for the price. I filled one out for my son and then got another in more pastel colors for my daughter.

The baby book is perfect, very nice quality and will be perfect for my friends gender neutral baby shower. My only complaint is that the front of the baby book was slightly damaged in a couple of spots. Nothing major but enough where I had to sneak some tape on it. Hopefully the couple doesn't notice.

This book covered everything for the first year! The only thing I added in myself was dates of first tooth but besides that I love the fun colors and to see the year of pictures month by month ;)

I had this book in slightly different colors for my first child. I liked it enough to get another one for my second. The pages are pretty sturdy, the ideas are cute, and the pocket-pages are great!

Love this baby book! Plus it's a great deal for the price. It has a lot to fill out and pictures to put in and pocket pages which is the main thing I was looking for in a book.

The cover on this book was curved and had to set some heavy books on the cover which helped some. However book is very cute!
