# Java Software Solutions (8th Edition)

Synopsis

Note: You are purchasing a standalone product; MyProgrammingLab does not come packaged with this content. If you would like to purchase both the physical text and MyProgrammingLabÂ search for ISBN-10: 0133796280/ISBN-13: 9780133796285. That package includes ISBN-10: 0133594955/ISBN-13: 9780133594959 and ISBN-10:0133781283 /ISBN-13: 9780133781281. MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor.   Java Software Solutions is intended for use in the Java programming course. It is also suitable forÂ readers interested in introductory Java programming. Â   Java Software Solutions teaches a foundation of programming techniques to foster well-designed object-oriented software. Heralded for its integration of small and large realistic examples, this worldwide best-selling text emphasizes building solid problem-solving and design skills to write high-quality programs. Â MyProgrammingLab for Java Software Solutions is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and examsâ"resulting in better performance in the courseâ"and provides educators a dynamic set of tools for gauging individual and class progress. Â   Teaching and Learning Experience To provide a better teaching and learning experience, for both instructors and students, this program will: Personalize Learning: Through the power of practice and immediate personalized feedback, MyProgrammingLab helps students fully grasp the logic, semantics, and syntax of programming. Help Students Build Sound Program-Development Skills: A software methodology is introduced early and revisited throughout the text to ensure that students build sound program-development skills. Â   Enhance Learning with In-text Features: A variety of features in each chapter help motivate learning. Provide Opportunities to Practice Design Skills and Implement Java Programs: Â A wealth of end-of-chapter programming projects and chapter review features help reinforce key concepts.   Support Instructors and Students: Resources to support learning are available on the Companion website and Instructor Resource Center.

Book Information

Paperback: 832 pages
Publisher: Pearson; 8 edition (March 3, 2014)
Language: English
ISBN-10: 0133594955
ISBN-13: 978-0133594959

Product Dimensions: 7.4 x 1.2 x 9 inches

Shipping Weight: 2.4 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars See all reviews (15 customer reviews)

Best Sellers Rank: #63,557 in Books (See Top 100 in Books)   #27 in Books > Textbooks > Computer Science > Object-Oriented Software Design   #55 in Books > Computers & Technology > Programming > Languages & Tools > Java   #77 in Books > Computers & Technology > Programming > Software Design, Testing & Engineering > Object-Oriented Design

Customer Reviews

Here's what you need to know about this Pearson product. The book is fine and seems like an adequate book for teaching Java. However, what college students need to be aware of is there are other components that can be bundled with this book.One of these is MyProgrammingLab. You will either need to buy a book that includes the access code for this or purchase the code separately on the Pearson website. My son isn't actually using this part for his college class, so I can't speak about the quality of the actual product.There is also another portion called the Companion Website. I have been told that copies of the physical book come with the access code for this. If you buy the ebook, and there are several companies that put them out, it does NOT come with the companion website access code. You can try to purchase this on the Pearson site - except for the fact the the buy button doesn't actually work. Their tech support says this isn't their problem and you will have to contact customer service. However, my son was able to find a work around and managed to pay for the code.However, you do NOT get instant access. You have to wait for the code to be emailed to you within the next 24 hours. And by 24 hours they mean, you'll have to try contacting someone when you don't actually receive it. Again, tech support says not their issue that you didn't receive the code and you have to email customer support and wait for a response. In this case their automated email message says expect to hear back 3 days from now.College students need to be aware that the the ebook version sold by the Barnes and Noble campus bookstores doesn't include the code, even though you will be told they do. The ebook is by Yuzu (a Barnes and Noble company).
