Customer Reviews

I thought this seemed like a great idea to help keep me organized. However, it turned out to be more of a book than a planner. It was for a very formal wedding with an unlimited budget. I wouldn't suggest this as a planner. But if you want to know wedding etiquette, this is for you

bought this book for my daughter to help her get organized. she takes it with her everywhere. i would recommend this book

This book is all you need for an inexperienced Bride to be, that is why I chose it, as a gift to her it

lived up to all my expectations. instead of listening to people who themselves are not married and taking all kinds of ill advise I chose that for her. I am a caterer and i knew she was being led astray, but since reading that she is fully in control of her self.,Proper Book with every thing you need to know.

I bought this for my future daughter-in-law to plan her wedding. She loves it. There are wonderful suggestions for details often missed along with a great planning guide. Whether you are planning a formal or informal setting, the guide will be an indispensable tool to avoid frayed nerves.

Great product that will keep you organized...bought it for my sister to help with her wedding and she loves it!

I take this with me everywhere!!! Planning a wedding is hard but this book has every scenario, checklist, and step-by-step explanations that you could possibly encounter. Very glad I bought this product.

Bought this for my daughter to help keep track of all of her planning for her wedding. She was happy to get it and it has a lot of great ideas of what the keep track of and do to prepare for her wedding.

3.5 stars.Helpful, somewhat thorough (although I do believe it could be better), but not in an easy to use format.This is a smaller than normal book (think average hard cover book size) and the worksheets are not arranged in a particularly user friendly or easily read format. Also, there is only one worksheet per category (e.g. one worksheet to use for one reception site). Therefore, you will likely need to make multiple copies, which can't be reattached to book (i.e. you will have many loose papers), which increases the inconvenience factor & the likelihood of losing a sheet(s).Better than the average wedding book out there.
