Customer Reviews

This is a nice book of examples of what you can do with fashion illustrations. I expected it to give more tutorials on how-to create designs and more. It didn't really give much instruction and overrall, the book is very disappointing. If you want a book for inspirational reasons and not technical instructions, then I'd recommend this book. However, it was not for me.

Nice book with a lot of images, but I had expected an extention on the previous book with more in-depth techniques and how-to's.It's a bit of a combination between a review of sketches and illustrations, and a how-to, but it stays a bit too much on the surfaces by trying to reach a double

target group.

Great book, Terrible 'new' condition. Super disappointed.

A great source of inspiration if you are wondering how to make your fashion illustrations contemporary and stylish.
