Customer Reviews

Too much depth for someone upgrading from Vista. Like a text book. Assumes knowledge of more recent versions of Windows.

It is not a book to read from beginning to end. It is great, whenever I have a specific point which I want to research.

Excellent book on how to use outlook! Easy to read and understand and goes step bu step!

Much more technical than I need, probably designed for professional level use.

Detailed instructions I greatly needed - well pleased
