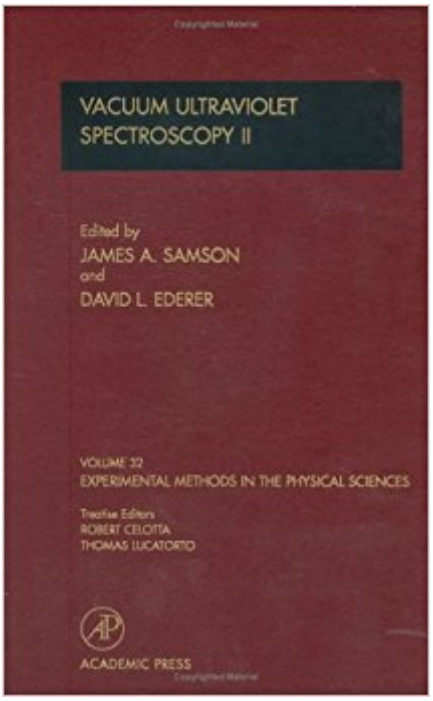
Vacuum Ultraviolet Spectroscopy II, Volume 32 (Experimental Methods In The Physical Sciences)



Synopsis

This volume is for practitioners, experimentalists, and graduate students in applied physics, particularly in the fields of atomic and molecular physics, who work with vacuum ultraviolet applications and are in need of choosing the best type of modern instrumentation. It provides first-hand knowledge of the state-of-the-art equipment sources and gives technical information on how to use it, along with a broad reference bibliography.

Book Information

Series: Experimental Methods in the Physical Sciences (Book 32)

Hardcover: 307 pages

Publisher: Academic Press; 1 edition (September 4, 1998)

Language: English

ISBN-10: 0124759793

ISBN-13: 978-0124759794

Product Dimensions: 0.8 x 5.8 x 9 inches

Shipping Weight: 1.5 pounds
