Working With Children In Art Therapy

Synopsis

Working with Children in Art Therapy is a collection of papers by ten art therapists working in the major child care agencies as part of a professional team. Each paper describes a different theoretical perspective and clinical setting with an emphasis on the language of art in art therapy and ways of understanding non-verbal communication. Contributions cover working with children in psychiatric clinics within the National Health Service, in mainstream and special schools, and in the social services.

Customer Reviews

Great bOok really insightful . Some ideas are a bit out dated in refine to the chapter on sexual identity . But overall really good.

good reference book
