Gardens Adirondack Style

Synopsis

Garden photographer Janet Loughrey has covered the vast Adirondacks region to document how people have overcome the area's challenging mountain climate to create beautiful gardens for the past 150 years. Her profiles of contemporary gardeners and landscapers and their creations are supplemented with fascinating historic photos of the lavish landscaping of famed Adirondack-style estates such as Nirvana and the Knapp Estate and grand old hotel resorts such as Scaroon Manor and Sagamore.

This should be the primer for garden coffee-table books. This book features gorgeous photos, a terrific representation of every area of the Adirondacks, interesting stories, and history on the gardens. I especially appreciated the background given for each garden, and the nice balance between historic gardens, personal gardens, and public areas. I don't often rave, but this is just about everything I could want in a garden photo book.

Very beautiful and informative. Photo's are superb. Text is a well researched and fascinating history of gardens old and new. Keen gardener's eye and knowledge is evident throughout.

Lovely photographs and well-written. Provides good ideas for gardeners to use in developing new landscaping and planting ideas.

A nice book filled with useful information. A perfect gift for a Master Gardener.

Good images. The bushes and plants are generally identified, which makes it helpful for the North a Country seasonal gardener.
